Conservation in Earthen Heritage Mariana Rita Alberto Rosado Correia,2016-02-22 Worldwide, there is a vast but fragile earthen heritage that is barely surviving due to serious damage of the fabric. It is generally believed that natural agents are the overall cause for the decay of earthen heritage. However, when thoroughly evaluating, it can be observed that conservators' interventions have a major impact, which leads to question current approaches to conservation and the reasons why intervention mistakes are repeated and why successful conservation results are still scarce. The research methodology of this investigation is based in a case study strategy analysing three World Heritage earthen sites, namely Chan Chan in Peru, Ait Ben Haddou in Morocco and Arg-e Bam in Iran. A combination of sources was also used, following a multi-method approach. This book suggests implementing standards for high quality intervention through the definition of criteria for decision-making and indicators of quality and best practice, as well as clarification concerning procedures in the methodology of intervention. It also stresses the importance of conservation theory in earthen heritage conservation, combining theory and practice. In addition, the book recommends an overall strategy in the conservation of earthen heritage, with particular emphasis on an approach that integrates education, awareness, research and preventive conservation.

Women, Business and the Law 2021 World Bank,2021-04-05 Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

From Vernacular to World Heritage Letizia Dipasquale, Saverio Mecca, Mariana Correia, 2022 This publication brings together the results of the project 3DPAST: Living and virtual visiting European World Heritage, co-funded by the Creative Europe EU programme. The research highlighted the exceptional character and quality of living in vernacular dwellings found in World Heritage sites. This was possible by seizing the cultural space of European vernacular heritage, located in Pico island (Portugal), Cuenca town (Spain), Pienza (Italy), Old Rauma (Finland), Transylvania (Romania), Berat & Gjirokastra (Albania), Pátmos (Greece), and Upper Svaneti (Georgia). New digital realities grant the possibility to visit and to appreciate those places, to non-travelling audiences, who lack the opportunity to experience this unique heritage in situ. Creative potential is highlighted in 3D models and digital visualisations, which associate outstanding local knowledge with the vernacular expression of World Heritage.

Knowledge of the Pragmatici, 2020-03-31 Knowledge of the pragmatici sheds new light on pragmatic normative literature (mainly from the religious sphere), a genre crucial for the formation of normative orders in early modern Ibero-America. Long underrated by legal historical scholarship, these media - manuals for confessors, catechisms, and moral theological literature - selected and localised normative knowledge for the colonial worlds and thus shaped the language of normativity. The eleven chapters of this book explore the circulation and the uses of pragmatic normative texts in the Iberian peninsula, in New Spain, Peru, New Granada and Brazil. The book reveals the functions and intellectual achievements of pragmatic literature, which condensed normative knowledge, drawing on medieval scholarly practices of 'epitomisation', and links the genre with early modern legal culture. Contributors are: Manuela Bragagnolo, Agustín Casagrande, Otto Danwerth, Thomas Duve, José Luis Egío, Renzo Honores, Gustavo César Machado Cabral, Pilar Mejía, Christoph H. F. Meyer, Osvaldo Moutin, and David Rex Galindo.
