**Cold Burn of Magic**-Jennifer Estep 2015 There Be Monsters Here. . . It's not as great as you'd think, living in a tourist town that's known as "the most magical place in America." Same boring high school, just twice as many monsters under the bridges and rival Families killing each other for power. I try to keep out of it. I've got my mom's bloodiron sword and my slightly illegal home in the basement of the municipal library. And a couple of Talents I try to keep quiet, including very light fingers and a way with a lock pick. But then some nasty characters bring their Family feud into my friend's pawn shop, and I have to make a call--get involved, or watch a cute guy die because I didn't. I guess I made the wrong choice, because now I'm stuck putting everything on the line for Devon Sinclair. My mom was murdered because of the Families, and it looks like I'm going to end up just like her. . .

But when state trooper Laura Caxton calls the FBI looking for help in the middle of the night, Arkeley is unsurprised to hear that it sounds like a vampire attack. He's been expecting such a call to come eventually. Sure, it has been years since any signs of an attack, but Arkeley knows what most people don't: there is one left. In an abandoned asylum she is rotting, plotting, and biding her time in a way that only the undead can. Laura Caxton is out of her league on this case and more than a little afraid. Arkeley made it clear there is only one way out. The worst thing is the feeling that the vampires want more than just her blood. They want her for a reason, one she can't guess; a reason her sphinxlike partner knows but won't say; a reason she has to find out-or die trying.

**Achtung-Panzer!**-Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
