Toward Interventions in Human Resources for Health in Ghana Ebenezer Appiah-Denkyira, Christopher H. How to Start a Hospital in Ghana (2nd Edition) Joseph K. Gyanteh, 2017-03-12 FOREWORD FOREWORD Dr. Joseph Gyanteh brings together several years of experience as a medical entrepreneur to bear in this powerful book which he has aptly titled START YOUR OWN HOSPITAL IN GHANA. I deem it a great privilege to be called upon to write the foreword for this book. Having, as a business consultant, assisted in the set-up of many hospitals, clinics and maternity homes and guiding many dying hospitals, navigate their way to recovery and in some cases safely transferring ownership to a new group of shareholders, Dr. Gyanteh has distinguished himself as an authority in this business and has become the go-to person on issues related to this subject area. This book will enlighten you, by revealing the truths, the myths and some of the realities of establishing, owning, managing and ensuring the survival of your hospital or clinic in Ghana. The landscape of the private healthcare delivery industry in Ghana has enough room for more people or business entities to become formidable players. This is because Ghana has an inadequate number of health delivery facilities in comparison to the number of people with unmet healthcare needs. The so much touted 'many private providers' are mainly centered in the two regional capitals - Accra and Kumasi. Prospective hospital owners are not venturing into the trade beyond these two cities, because of lack of a good understanding of the business environment as well as a short term outlook on the profitability of these businesses. If potential investors can venture with the hope of establishing a healthcare facility that will exist beyond their life-time, then this is a must-read book.

Start Your Own Hospital in Ghana Joseph Kofi Gyanteh, 2016-03-08 FOREWORD: Dr. Joseph Gyanteh brings together several years of experience as a medical entrepreneur to bear in this powerful book which he has aptly titled START YOUR OWN HOSPITAL IN GHANA. I deem it a great privilege to be called upon to write the foreword for this book. Having, as a business consultant, assisted in the set-up of many hospitals, clinics and maternity homes and guiding many dying hospitals,

navigate their way to recovery and in some cases safely transferring ownership to a new group of shareholders, Dr. Gyanteh has distinguished himself as an authority in this business and has become the go-to person on issues related to this subject area. This book will enlighten you, by revealing the truths, the myths and some of the realities of establishing, owning, managing and ensuring the survival of your hospital or clinic in Ghana. The landscape of the private healthcare delivery industry in Ghana has enough room for more people or business entities to become formidable players. This is because Ghana has an inadequate number of health delivery facilities in comparison to the number of people with unmet healthcare needs. The so much touted 'many private providers' are mainly centered in the two regional capitals - Accra and Kumasi. Prospective hospital owners are not venturing into the trade beyond these two cities, because of lack of a good understanding of the business environment as well as a short term outlook on the profitability of these businesses. If potential investors can venture with the hope of establishing a healthcare facility that will exist beyond their life-time, then this is a must-read book. Having worked in the private health care sector for the past 10years, and partnering to set-up an OPD-only clinic myself, I really appreciate the snags, the high notes and the discord rhythms a would-be hospital owner will have to overcome to ensure the profitability and sustainability of embarking on this business venture. I highly recommend this book to you because it is one of the companions you will need on this expedition. I wish you well on your journey into the world of Medical entrepreneurship. It has been done before. You can do it too!!! DAN VINCENT ARMOOH (MD, MBA, MPH) CEO, ACACIA HEALTH INSURANCE

Commercialization of Health Care M. Mackintosh, M. Koivusalo, 2005-09-19 Based on original research and analysis by a group of health policy experts and economists from across the world, this book analyzes the causes and consequences of the expanding global and local commercialization of health care. It argues for the necessity and possibility of effective policy responses to develop good quality, universally inclusive health systems worldwide. The book aims to contribute to a shift in the international 'common sense' in health policy towards a more humane, inclusive, egalitarian, and ethical framework for policy formulation.

African Perspectives on South-South Migration Meron Zeleke, Lahra Smith, 2024-04-01 This book investigates the diverse and dynamic forms of migration within Africa. Centring themes of agency, resource flows, and transnational networks, the book examines the enduring appeal of the Global South as a place of origin, transit, and destination. Popular media, government pronouncements, and much of the global research discourse continue to be oriented towards migration from the Global South to the Global North, despite the fact that the vast majority of migration is South-South. This book moves beyond these mischaracterisations and instead distinctly focuses on the agency of African migrants and the creative strategies they employ while planning their routes within and across the African continent. Case studies explore the flow of resources such as people, money, skills, and knowledge throughout the continent, while also casting a light on the lived experiences of migrants as they negotiate their sometimes precarious and vulnerable positions. Underpinned by intensive empirical studies, this book challenges prevailing narratives and provides a new way of thinking about South-South Migration. Composed by a majority of scholars from the Global South, the book will be crucial reading for researchers, students, and policy makers with a focus on South-South Migration, Migration and Inequalities, Migration and Development, and Refugee and Humanitarian Studies.

Mobility of Health Professionals to, from and within the European Union International Court of Justice, 2014-02-04 This publication is a shortened version of the summary report "Mobility of Health Professionals: Health systems, work conditions, patterns of health workers' mobility and implication for policy makers", which was published in March 2012, in Bonn, Germany, by a consortium led by Dr. Caren Weilandt at the Wissenschaftliches Institut der Ärzte Deutschlands (WIAD, Scientific Institute of the Medical Association of German Doctors). It provides an overview of the outcomes of the MoHProf project that aimed to gather more insights into the processes and effects of mobility of health professionals to, from and within the European Union (EU) and which was carried out under the 7th Framework Programme for Research and Development of the EU.
