unwavering beside him. Rowan hunts to find his captured wife and queen before she is lost to him forever. As the threads of fate weave together at last, all must fight, if they are to have a chance at a future. Some bonds will grow even deeper, while others will be severed forever in the explosive final chapter of the Throne of Glass series.

On Writing

Stephen King began to write about his craft— and his life. By midyear, a widely reported accident jeopardized the survival of both, made the months of recovery, the surgery, the nursing and bringing a novel to market nearly ruinous. Rarely has a book on writing been so clear, so useful, and so revealing. On Writing begins with a mesmerizing account of King's childhood and his uncannily early focus on writing to tell a story. A series of vivid memories from adolescence, college, and the struggling years that led up to his first novel, Carrie, will affine readers a fresh and often very funny perspective on the formation of a writer. King next turns to the basic tools of his trade—how to sharpen and multiply them through use, and how the writer must always have them close at hand. He takes the reader through crucial aspects of the writer's art and life, offering practical and inspiring advice on everything from plot and character development to work habits and rejection. Beautifully structured, On Writing culminates with a profoundly moving account of how King's overwhelming need to write spurred him toward recovery, and brought him back to his life. Brilliantly written, On Writing will enchant every writer, whether experienced or new.
