Hearing Difference-Kanta Kochhar-Lindgren 2006 This engrossing study investigates the connections between hearing and deafness in experimental, Deaf, and multicultural theater. Author Kanta Kochhar-Lindgren focuses on how to articulate a Deaf aesthetic and how to grasp the meaning of moments of “deafness” in theater works that do not simply reinscribe a hearing bias back into one’s analysis. She employs a model using a device for cross-sensory listening across domains of sound, silence, and the moving body in performance that she calls the “third ear.” Kochhar-Lindgren then charts a genealogy of the theater of the third ear from the mid-1800s to the 1960s in examples ranging from Denis Diderot, the Symbolists, the Dadaists, Antonin Artaud, and others. She also analyzes the work of playwright Robert Wilson, the National Theatre of the Deaf, and Asian

American director Ping Chong. She shows how the model of the third ear can address not only deaf performance but also multicultural performance, by analyzing the Seattle dance troupe Ragamala’s 2001 production of *Transposed Heads*, which melded classical South Indian use of mudras, or hand gestures, and ASL signing. The shift in attention limned in *Hearing Difference* leads to a different understanding of the body, intersubjectivity, communication, and cross-cultural relations, confirming it as a critically important contribution to contemporary Deaf studies.

Modernity's Ear-Roshanak Kheshti 2015-10-23 Inside the global music industry and the racialized and gendered assumptions we make about what we hear Fearing the rapid disappearance of indigenous cultures, twentieth-century American ethnographers turned to the phonograph to salvage native languages and musical practices. Prominent among these early "songcatchers" were white women of comfortable class standing,

similar to the female consumers targeted by the music industry as the gramophone became increasingly present in bourgeois homes. Through these simultaneous movements, listening became constructed as a feminized practice, one that craved exotic sounds and mythologized the 'other' that made them. In *Modernity's Ear*, Roshanak Kheshti examines the ways in which racialized and gendered sounds became fetishized and, in turn, capitalized on by an emergent American world music industry through the promotion of an economy of desire. Taking a mixed-methods approach that draws on anthropology and sound studies, Kheshti locates sound as both representative and constitutive of culture and power. Through analyses of film, photography, recordings, and radio, as well as ethnographic fieldwork at a San Francisco-based world music company, Kheshti politicizes the feminine in the contemporary world music industry. Deploying critical theory to read the fantasy of the feminized listener and

feminized organ of the ear, Modernity's Ear ultimately explores the importance of pleasure in constituting the listening self.

Eyes are Watching, Ears are Listening-Eycke

Strickland 2008 With skill, sensitivity, and spirit, Eyes are Watching, Ears are Listening tells the story of Eycke Strickland's unusual childhood in the Third Reich. In beautiful prose, the author relates fascinating memories of a large, loving, and unconventional family in pre-war Germany and in war-time (German-annexed) Poland. Strickland's evocative anecdotes and candid commentary paint a richly-layered portrait of family ties and tensions, on the one hand, and of childhood adventures and anxieties, on the other. Simultaneously, the book contributes to our understanding of life and death under National Socialism. From the viewpoint of a young, but perceptive,

daughter in an anti-Nazi family, we learn about relations between Germans and Jews, Germans and Poles, and ordinary Germans and Nazi officials in a Polish town located close to Auschwitz. Above all, we are introduced to a courageous family that resisted a criminal regime and survived total war. Strickland's father, Karl Laabs, rescued many Jews from deportation to Auschwitz. Her mother's civil treatment of Poles led to repeated threats from Nazi stalwarts. Their resilient children helped the family endure a terrible time. This poignant, informative memoir deserves a wide readership. - Donna Harsch, Ph.D., author of German Social Democracy and The Rise of Nazism, and Revenge of the Domestic: Women, the Family, and Communism in the German Democratic Republic.

Finding Myself-Roger Denk
2015-01-08 A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes not chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my

recollection of things past, and as in all recollections, the more distant the memory the clearer the details.
